## **About Our Event:**

### **Brief description:**

Every year, Don Bosco Institute of Technology and FOSS United host the Mumbai Hackathon. The FOSS United Open Source foundation funded the Rs 1,00,000 total winning prize.

These are a handful of the Mumbai Hackathon's key characteristics.

- A two-day gathering where students can collaborate to create problem-solving software.
- An excellent site for connecting and disseminating solutions among open source enthusiasts.
- scope to gather knowledge and create a network of professionals employed by industry.

**Category:** Hackathon

**Number of participants who registered:** 95

**Number of participants who participated:** 49

### **Reasons why we chose this event:**

The intention of hosting Mumbai Hackathon was to promote Open Source Technologies and to provide a platform for students to interact with industry professionals on a one to one basis

**Registration fee:** Free

### **How was it conducted?**

#### **Day1**

Registration for the event took place at first, and then the inauguration began in the seminar hall of Don Bosco Institute of Technology. The event started with Jhanvi Ma'am, HOD of the IT department, who also welcomed the Foss United and flappe team. Later, speakers from FOSS United and frappe addressed the audience. The students began working on their projects in their designated labs after the inauguration. Around 1:15, the participants took a brief lunch break and

then resumed working. Starting at 3 p.m., the evaluation was conducted by flappe members, FOSS United members, and DBIT IT faculty members. During this time, they interacted with the students and gained an understanding of their concepts and projects. The core took pictures to mark the conclusion of the first hackathon day.

**Volunteers: 3**

**Time commitment: 8 hrs**

## **Day2**

Second day of the hackathon started with participants working on their projects and around 2 PM the final presentation round of the hackathon was started. Of the total 14 teams ( 49 members) ,participated in this Hackathon. (13 external teams and 1 DBIT team). 11 teams opted to present their topic to the panel and the audience. Many teams presented innovative ideas on domains ranging from social cause to cutting edge technologies. After all the team presented their innovative ideas to Suraj Mehta, maintainer of frappe addressed the crowd after Presentation shrikrishna sir congratulated the participants and the organizer. The event came to an end with Jhanvi Ma'am giving a vote of thanks to participants, CSI core team and sponsors.
