

Git & Github Workshop

Event: A two days hands on workshop for beginners to learn Git & Github

Date: 04/08/2022 & 05/08/2022

Time: 3:00 PM to 5:30PM

Location: IT Lab 01 & IT Lab 06, 3rd floor A wing, DBIT, Kurla.

Conducted by: Tushar Padhy & Simar Kaur

Coordinator: CSI Team ,DBIT

About Our Event:

Brief description:

A comprehensive workshop curated and conducted specially for beginners, teaching them how to use Git through command line as well as covering all the important functionalities of Git and Github

Category: Workshop

Number of participants who registered: 43

Number of participants who participated: 35

Reasons why we chose this event:

Students usually do not take a course that teaches them Git and Github, although these skills are essential for their mini projects or any projects. Without these platforms, it is impossible for them to collaborate and manage their projects.

Registration fee: Free
